

VYACHESLAV VASILYEVICH DMITROV

BI DEVELOPER

+7 (928) 901-25-00
vyacheslavdmitrov@gmail.com
vyacheslavdmitrov.github.io/portfolio/eng

PERSONAL DETAILS

Male, 32 years old, born May 7, 1994
Rostov-on-Don, Russia
Citizenship: Russia; authorized to work in Russia
Not open to relocation; available for business travel

WORK PREFERENCES

Target role: BI Developer
Specializations: BI Analyst, Data Analyst, Analyst
Part-time employment, project work, one-off assignments
Remote or rotational work

PROFESSIONAL PROFILE

BI developer and data analyst with experience in analytics since 2015 and BI development since 2021. I develop Qlik Sense and Power BI applications, design ETL processes and QVD layers, and integrate 1C, SQL databases, CRM systems, REST APIs and Google Sheets. My work includes requirements gathering, calculation validation, reload support, incident diagnostics, access configuration and backup of Qlik Sense components.

CORE COMPETENCIES

BI DEVELOPMENT Qlik Sense, QlikView, Qlik Script, Set Analysis, QVD, Section Access, Power BI, DAX, Power Query	DATA INTEGRATION SQL, DWH, PostgreSQL, MySQL, MariaDB, 1C, REST API, CRM, Google Sheets, file-based sources
BI ENGINEERING ETL, data models, config-driven extraction, field mapping, incremental loads, monitoring, optimization	SUPPORT & OPERATIONS Role-based access, reload diagnostics, PowerShell, backup, disaster recovery, documentation

PROFESSIONAL EXPERIENCE • 10 YEARS 6 MONTHS

09.2021 - Present

FRESH AUTO BI Analyst

Rostov-on-Don • freshauto.ru

Development and support of Qlik Sense and Power BI applications for dealership operations, sales, service, finance, corporate social responsibility, marketing and related business units.

Key responsibilities and results

- Developed Qlik Sense applications for sales, traffic and NPS analysis; the reports are used by more than 60 users.
- Built a configuration file for ETL management and standardized field mapping for BI reports.
- Configured direct data extraction from 1C and integrations through CRM and external-service APIs.
- Developed 49 dashboards in under two years; in total, more than 60 Qlik Sense and Power BI applications across six business areas.
- Implemented ETL pipelines that consolidate data from more than eight sources into QVD layers.
- Configured multi-level access control for data and reports.
- Conducted requirements workshops, calculation reviews, user acceptance testing and user training.
- Worked with 10+ GB tables and analytics workloads processing more than 100 million data rows.

PROFESSIONAL EXPERIENCE • CONTINUED

01.2021 - 05.2021

Personal Website Portfolio Development

vyacheslavdmitrov.github.io/portfolio

Independent development and publication of a personal portfolio website.

- HTML, CSS, Git and GitHub Pages.
- Hands-on experience in front-end layout and maintenance of a static website.

05.2020 - 12.2020

Cetera Software Development Intern

cetera.ru

Practical work in web development and website support.

- Front-end layout implementation and user-interface bug fixing.
- Support and administration of websites built with WordPress, Joomla, CeteraCMS and 1C-Bitrix.

08.2015 - 01.2020

DTEK Analytics Department Specialist

Energy • dtek.com

Analytical reporting, 1C support and automation of recurring tasks.

- User training and administration of 1C:Enterprise.
- Performance monitoring and preparation of data for employee assessment and incentive calculations.
- Advanced Excel: PivotTables, macros, SUMIFS, VLOOKUP, HLOOKUP and combined formulas.
- Power Query and Power Pivot for processing and consolidating large data sets.
- Introduced a shared data repository instead of distributing files by email.
- Completed DTEK Academy courses in competency assessment, time management, leadership and effective teamwork.

TECHNICAL SKILLS

BI platforms

Languages & calculations

Data preparation

Databases & warehouses

Integrations

Infrastructure

Qlik Sense, QlikView, Power BI

Qlik Script, Set Analysis, DAX, SQL

Power Query, ETL, QVD, mapping, incremental loads

PostgreSQL, MySQL, MariaDB, DWH

1C, REST API, CRM, Google Sheets, Calltouch, Bachata, Avtodeler

Section Access, reload monitoring, PowerShell, backup, disaster recovery

EDUCATION

2018**National Mining University
Higher Education**

Dnipro, Ukraine

Faculty of Information Technology. Major: Software Engineering.

PROFESSIONAL DEVELOPMENT AND COURSES

2023	Power BI: Development and Visualization	Eduson Academy
2023	Building Analytical Reports with Qlik Sense	Specialist Training Center at Bauman Moscow State Technical University
2018	Administration and Configuration of 1C:Enterprise 8.3	STEP Computer Academy

TESTS AND CERTIFICATES

2018 HTML Academy - HTML Fundamentals	2018 HTML Academy - CSS Fundamentals
2018 1C-Bitrix - Content Manager	2018 1C-Bitrix - Administrator
2018 Hexlet / Code Basics - PHP	2018 SoloLearn - jQuery
2018 Electronic Certificate in HTML and CSS
